## Dear Tac-Vac

by: Ted Jefferson

Dear TAC VAC:

Q--My husband served on active duty from July 1956 to June 1962. He received an honorable discharge. He had used some GI Bill education entitlement before his death. VA tells me that his death was not service-connected and I am not eligible for a pension. Wasn't he a veteran?

A. He was a veteran for GI Bill purposes, but he was not a "War" veteran for VA pension purposes. His services must have included service on or before Jan. 31, 1955, or after Aug. 5, 1964, to be classed as a "war" veteran.

Q--Is the widow of a disabled veteran who died while receiving tratment in a VA hospital entitled to commissary, exchange and other privileges at military installations?

A--If the deceased was determined by the Veterans Administration to be totally (100 percent) disabled from service-connected causes, the unmarried widow is entitled to commissary and exchange privileges, but not medical care at military installations or from civilian sources at government expenses. She should obtain an ID Card (DD 1173) at the nearest military installation, using the VA determination as authorization.

Q--When a veteran applies for waiver of his NSLI premium because of total disability, will payment of the full proceeds be made to his beneficiary? Will dividends continue to be paid on the policy while it is under waiver?

A--The premium waiver will not cause any reduction in the face amount of the policy. Dividends will continue to be paid on participating policies while the premium waiver is in effect.

Address all questions concerning veterans to: Tacoma Veterans Action Center, 1301 So. "K" Street, Tacoma, Washington 98405, 383-4008

## BEWARE of GOOD DEALS

Tacomans were urged today to be wary of persons offering to sell expensive stereo equipment or television sets at "unbelievably" low prices. The warning came as police continued their crackdown on burglaries under the department's new Crime Specific program.

As an example, people who offer a 23" color TV for sale at the price of $100 and have the set readily available should be considered as possible burglars or outlets for stolen merchandise according to Capt. Wallace Seymour of the department's Criminal Investigations Division.

"Many burglaries are being committed by people who offer the stolen merchandise to people they meet in bars, through newspaper ads or to friends who may not be aware or care about their activities in the criminal area," Seymour explained.

Whenever the department can trace down stolen property, which may have been purchased in good faith, the property is returned to its rightful owner. The second "owner" who purchased the property from a thief has little recourse in recovering any money expended on the item.

"Additionally," Seymour continued, "If we can determine the person bought the property knowing that it was stolen, we will file charges of possession of stolen property. If the item has a value in excess of $75, that's grand larceny and this crime carries a maximum penalty of 15 years in prison."

The department made two arrests in the past week involving persons who knowingly purchased stolen merchandise. Information leading to those arrests was obtained from the burglars who peddled the merchandise to the people in the first place!

Seymour pointed out that many persons who have purchased stolen merchandise have, in return, been the victims of the same burglars who sold the stolen property originally. Few instances of this type of burglary are reported to the department because "victims" realize the truth of the original theft might be uncovered during the investigation and then they would be subject to criminal charges.

In addition to a high number of burglaries being committed by drug users, many are being committed by people who seek quick profit for very little work. There are always those who willingly buy "questionable" merchandise and the money either goes back into the drug circle or for other items which the burglar might not have been able to steal or afford to purchase through legitimate means.

"Burglary is profitable," Seymour concluded. "That is, it's profitable until you get caught. The risk of apprehension is becoming greater as Crime Specific increases its strength in the community. This is something every would-be burglar should consider before taking something. The possibility of arrest of people who knowingly purchase stolen items is greater as each burglar is apprehended and questioned as is the chance of losing that 'good deal' for the innocent buyer."

## ASIAN AMERICAN ADVISORY MEETING

The Asian American Advisory Council to the Governor will hold its monthly meeting in Tacoma this month. The Governor's Council, first of its kind in the U.S., will meet at the Tacoma Community House, 1311 South M St., on Oct. 27.

Meetings are normally held in Seattle. The meeting here is planned in conjunction with the Asian Day festival at the Tacoma Community House.

Rev. Robert M. Yamashita, Executive Director of the Tacoma Community House, and a member of the Asian American Advisory Council, will host the meeting. He is also a Tructee oLTacoma Community College and a former pastor of Whitney Mem rial United Methodist Church in Tacoma.

The meeting will be held from 10 a.m. to 3 p.m. and is open to the public.

## Basic educational grants to be available

Students needing money to enter advanced schooling this year have a new source of financial assistance which they should take advantage of. It is the new Basic Educational Opportunity Grants program, administered by the U.S. Office of Education.

More than $122 million is available under the program to first-year, first-time students attending approved community colleges, four-year colleges and universities, vocational schools, technical institutes or hospital schools of nursing.

The Basic Educational Opportunity Grants program was introduced to better aid needy students in helping them reach their educational goals and replaces the Federal government's EOP and EOG programs.

Students have until Feb. 1, 1974, to obtain and complete applications for this school year. Applications are available at student financial aid offices of postsecondary institutions, high school guidance offices, post offices, state employment offices, county agricultural extension offices, many other agencies and organizations dedicated to serving youth or by writing Basic Grants, P.O. Box 84, Washington, D.C. 20044.

Completed applications should be mailed to P.O. Box B, Iowa City, Iowa 52440. The student then will be notified of the amount his family is expected to contribute. The student should then submit this notification to the school of his choice which will calculate the amount of the Basic Grant.

The amount of each grant is determined on a uniform nationwide basis which assures that students who most need financial assistance are able to obtain it. Basic Grants are not loans and do not have to be paid back.

Every student entering an approved school for the first time this year is urged to apply now.

BY NAVY RECRUITERS

Under this program, the Navy guarantees recruits assignment to a ship in the overseas homeport of his choice. Homeport areas include the Mediterranean, Middle East, Japan, Guam and the Philippines. Commander J. L. Frederick, commanding officer of Navy Recruiting District Seattle, the nation's largest Navy recruiting territory, said that nationwide over 200 openings are scheduled in this program for the month of October.

Commander Frederick stated that guarantees of overseas areas are made only for the initial assignment. The program is open to recruits who can qualify for the Seafarer—Airman enlistment.

Recruits enlisting in this program will attend basic training at one of the Navy's Recruit Training Centers and upon completion will receive additional seaman, fireman or airman apprenticeship training of two and one half to four weeks duration depending on the field selected before being assigned to Navy ships homeported overseas.

---

The United States Army announces the recent enlistment of Mr. Jerome McQuerter. Mr. McQuerter, is the son of Mrs. Zeldar McQuerter, who resides at 1711 South M Street, Tacoma. Mr. McQuerter, enlisted for the Vulcan Crewman Option and will be assigned to 9th Infantry Division after completion of his schooling. Men and women who are interested in training and travel should contact SFC Charles Devening, local Army Recruiter, at the Tacoma Mall Office Building Suite 101 or by calling 472-9656.

Women are playing an increasingly-important role in today's Army. The number of women in the Army is expected to double within the next four years—to about 24-thousand. Career options for women are increasing too. Now all Army jobs are open to women—except the few skills that are directly related to combat. And women in the Army receive equal pay, benefits and opportunity for promotion. For information about opportunities for you in today's Army, call SFC Charles Devening, Tacoma Mall Office Building or 472-9656.

The Sanctuary's medical facilities will be made available to the people of the two countries, and the medical personnel onboard will participate in cross-training programs for local doctors and other health officials. The ship's hospital will cooperate with area hospitals to provide special medical care to local residents as part of the "Navy Handclasp" program. Additionally, a 13 man seabee team will be embarked to provide technical assistance to local people and help in various ways of engineering and public work projects. Nearly $500,000 worth of food, clothing, books and medical and building supplies have been donated to the Handclasp program by various U.S. organizations for the cruise. Navy Handclasp is a program which comprises all of the U. S. Navy's non-military overseas development assistance programs. A basic tenent of Handclasp is helping people to help themselves, with follow-up action by the host country on the projects in which the Navy has cooperated.

MONTEREY'S OWN WELFARE BAND

The hardship and pressure that goes with success is all behind the talented and devoted musicians of the Welfare Band, who will go into recording in the near future. The group inebreiated the campus of Pacific Lutheran Univ. to a movement difficult to match by any local or national entertainers.

After performing with such famous artists as Billy Preston, Elchino Cold Blood, Tower Power, James Brown to mention a few, the group has improved considerably and is now very professional.

The leader Avalino Pitts tenor and alto sax, trumpet, piano, flute and vocal, holds his group together like a family.

WHEN Robert Kennedy was Attorney General he was reported to greet new young lawyers entering the Department with the following message:

*"This may appear to be a large organization, but when you do something well, I will hear about it and it will go on your record. I want you to recall that I was recently a lowly worker in the Justice Department myself but that I now serve as Attorney General, due to perseverance, long hours, hard work, and the fact that my brother became President of the United States . . . not necessarily in that order."*

# PUBLIC NOTICE

"HOMESTEAD" - MALLOY

Housing Development Program (HDP), the Project Director's Corner. Like the horses at the race track standing in the stalls at the starting gate. We were waiting for the bell. We have it! We are off and running. Now that we are off and running, we want to have a good finish.

This article is one of many that will appear in the "FACTS" Bi-Weekly. We intended to dispel some of the fog of misunderstanding that shrouds the problem on housing in the Hilltop Neighborhood. Understanding all of the possible benefits in a potentially strong situation, the HDP staff is working to turn public apathy into constructive cooperation within the model neighborhood and the City of Tacoma - you are encouraged to forward questions you desire answers for to: Tacoma Urban League, Inc. HDP Attn: Mr. Malloy, 1301 South "K" Street, Tacoma, Washington 98405.

Q--What is the Housing Development Program (HDP)?

A--The HDP is a Tacoma Urban League Program which is funded by Model Cities and designed to rehabilitate substandard homes in the model neighborhood, provide counseling services to qualify 60 residents for home ownership and provide maintenance service to designated homes. HDP will develop a plan that will reflect the desires and needs of the residents for improving the overall environment.

Q--When is the talking going to stop and the work start?

A--Now! We are processing some of the approved persons on the list at this time. Actual work will start any day upon final approval by the Municipal Authority.

Q--What do the people working in the program know about the problems?

A--Most of them live here. To be exact nine (9).

Q--When will you start work on my home?

A--We are starting with the first thirty three (33) applications processed. Letters have already been mailed to appropriate home owners.

Q--How long will the HDP be in existence?

A--At this time we can only positively say June 30, 1974. The future after that time is uncertain.

Q--Who can I contact to find out if I am eligible for loan or grant assistance?

A--Model Cities Housing Planner

Q--Who will perform the approved maintenance work?

A--It is the intent of the HDP to use local minority contractors, whenever possible.

Fish as an article of diet.

The white-fleshed fish such as Whiting fish, Sole, Haddack, Cod are less nourishing but more digestible.

The Whiting is best suited for invalids, and nex comes the Sole. Fish oil is very good for the body.

# *Chrysler Names First Black Plant Mg*

*LOWELL PERRY: "It takes more than one touchdown to win the game."*

Lowell Perry, a professional football player turned lawyer turned automotive executive, has become the first black man to become manager of a U.S. automotive plant.

Chrysler Corp., which hired Perry 10 years ago, announced Tuesday that it has promoted him to manager of the company's Detroit Universal Division in Dearborn.

**THE PLANT,** which makes subassemblies, employs 1,500 workers, about 300 of them black. It's one of 72 Chrysler plants in the U.S.

Perry, 41, replaces Fred Parker Jr., who was named staff executive of Chrysler's U.S. Automotive Manufacturing Group.

Chrysler said Perry is the first black plant manager in the company's history. Spokesmen for General Motors, Ford and American Motors said they've never had a black plant manager at their companies.

"It feels good, really good," said Perry, a football All-American at the University of Michigan and later a player, coach and scout for the Pittsburgh Steelers of the National Football League.

"When it happens, it's paydirt. But you know that it takes more than one touchdown to win the game."

**Perry said that he hoped his promotion would encourage auto makers and other U.S. manufacturing companies to promote more blacks to supervisory positions.**

"I hope this will be a signal to many companies and many industries that blacks should get the opportunity to satisfy their desires," he said.

**PERRY SAID** that he feels his promotion has nothing to do with the current spasm of unrest among some Chrysler workers.

"It (the promotion) was going to happen anyway," he said. "I'd have been disappointed if it didn't happen."

A Chrysler spokesman said the company's current labor problems had nothing to do with picking a black plant manager.

Perry was highly qualified for the job, the spokesman said, "and we need someone to operate the facility, no matter what's going on that day."

# VIETNAM CULTURE EXHIBIT

The Indochina Mobile Education Project will be in Tacoma October 11-13, will a full program of music, films, and art exhibits from Vietnam, Laos and Cambodia. These three days are part of IMEP's four-month Western states tour.

IMEP is directed by Don Luce, who, with a number of Vietnamese, began the project in 1970. Mr. Luce is the former World Council of Churches Saigon representative who disclosed the use of the notorious "tiger cages" in South Vietnam's prisons.

As a result, the Thieu government withdrew his visa. He has testified before U.S. House and Senate committees. The coauthor of *Vietnam: The Unheard Voices*, and coeditor of *Poems from an Asian War*, Mr. Luce returned from Hanoi in January 1973, where he was on assignment for ABC news. ::Time" magazine has said that he "is to the South Vietnamese government what Ralph Nader is to General Motors. He knows the culture and people better than virtually any correspondent or U.S. government employee."

The purpose of the Project is to convey the human qualities of the Indochinese peoples, and to show the effect that recent events have had on their way of life. This is done through slides, films, taped music, and the impressive series of panels, showing Indochinese artworks. The panels, which will be exhibited in the lobby of the County-City Building October 11 and 12, allow the viewer to see examples of 2000 years of Indochinese art and culture.

Jacquelyn Chagnon and Roger Rumpf accompany the Washington segment of the IMEP tour. Ms. Chagnon worked in Saigon from 1968 to 1970, first with Catholic Relief Services, then with International Voluntary Services. She is the authoress of a book of Vietnamese recipes, and with Mr. Luce, the coeditor of *Poems from an Asian War*. Mr. Rumpf, an ordained minister in the United Church of Christ, has worked in the rural southern United States on farming programs and community development. His experiences there led him to see that "the wounds which the people of Indochina have experienced relate directly to the wounds we see in the homes and on the streets of America." Roger Rumpf has been with IMEP since January, 1973.

Ms. Chagnon and Mr. Rumpf will show films and slides, play music, and speak about their experiences with IMEP and in Vietnam Friday night, October 12, at 8 p.m., at the Shelter Half, 1902 Tacoma Avenue. They will also be at the cultural exposition at the County-City Building. Ms. Chagnon and Mr. Rumpf are available to address classes, congregations, or any interested groups in the community. To make arrangements for a discussion or film showing, please call BR 2-5227. IMEP is supported by tax-deductible contributions; and by the Council for Christian Social Action of the United Church of Christ, the United Methodist Board of Christian Social Concerns; and the Board of Christian Social Education of the United Presbyterian Church in the U.S.

ADVERSE criticism from a wise man is more to be desired than the enthusiastic approval of a fool.

While waiting for a bus, a young attractive girl was grabbed from behind and dragged into an alley. As her assailant tried to rip her dress off, she fired one burst at his face. Instantly he let her go and staggered around blindly, coughing and gasping. He later confessed to raping over a dozen women in the area. This girl and possibly others were saved from a vicious sexual attack.

"I have no opinion on Watergate, but if you'd like to hear what I think about my new Dart....."

The Scotsman, though he has a well earned reputation for canniness and frugality, has equally well earned his reputation for facing up to his just obligations. Thus he is in no way libeled by the phrase "scot free."

There are at least two other apparently "Scotch" terms in English. . ."hopscotch" and "Scotch verdict." The following facts should help you to scotch any rumors about them.

Hopscotch is an old English children's game. The player hops from one division to another of a diagram marked—or scotched—upon the ground, kicking a stone, or tile, with the foot on which he hops.

And a "Scotch verdict" is one "not proven."

I PRAISE LOUDLY; I blame softly.
